## Your Planning Application Service

---

Local Authority planning consent is normally required for all illuminated signs, other than where the sign replaces a sign of similar size or where the sign is displayed within a window.

Non-illuminated signs, provided they are fixed on the front of the premises, do not normally require planning consent, but consent may be required if the establishment is a Listed Building or it is within a conservation area.

The attitude of planning authorities can vary and there is no hard and fast rule. If you are in doubt about the attitude of your planning authority we recommend you seek its advice or telephone our sign manufacturer Semaphore Display which is familiar with the requirements of planning authorities throughout the country and offers a Planning Application Service. A fee will be charged for this service.

Call Semaphore Display on 02920 224 111 for further details.

In exceptional circumstances it is possible to manufacture 'one off' signs to a special size.

If you feel that you have a need for this service contact Semaphore Display for further information.

Please note that this service carries an additional cost.

---
